Oct 12, 2020 4:36 PM	Kyle Dolan	<p>So many great resources here! For people who are looking to get more active in climate action discussions--especially the students, early-career researchers, policy fellows, and other young voices in this forum--please check out the call for papers for a special issue of the Journal of Science Policy and Governance focussing on climate change solutions: https://www.sciencepolicyjournal.org/uk-sin-cop-26.html . The journal hopes to feature papers on COP26 priorities, including Nature-Based Solutions and the role of agri-food systems. Select authors will also be invited to present their work at the British Embassy in Washington! https://www.sciencepolicyjournal.org/uk-sin-cop-26.html</p>
